Time Zone:	Standard Japanese time is GMT +9
Tipping:	Tipping is not customary in Japan.
Visas:	Currently, nationals of 62 countries do not require visas for short stays (usually up to 3 months). You are advised to check with the Japanese Embassy in your home country before commencing travel to Japan. Competitors requiring a letter of invitation from Rally Hokkaido to obtain visas should contact the Competitor Support Manager. For a list of Japanese Embassies abroad, see: http://www.mofa.go.jp/about/emb_cons/over/
Water:	Normal tap water is drinkable. Some hotels also use non-drinkable, recycled water that is clearly marked as such

12.2 Telephones

Mobile Phones

The Japanese mobile phone network uses a different operating system to other systems that are in use globally.

For example, GSM phones do not work in Japan. '3G' phones do work.

Since roaming service limitedly available, please confirm if your mobile phone and contracted company are possible for the service.

Following are other options for mobile phone use if travelling from overseas:

Pre-paid Phone

Buy a cheap handset and pre-paid phone card from any convenience store. However, it will require you to show your ID like Japanese driving license to prevent any misuse. Please check the detail before use of the service.

SoftBank Pre Mobile

http://mb.softbank.jp/en/prepaid_service/

Public Phones

International calls can be made from grey, or brown/green coloured public telephones located in hotels and passenger terminals. JPY1,000 notes are required to buy phone cards to use the phones. Vending machines for phone cards are always located close to the phones.

Internet Connections

Almost all hotels have internet connections from hotel rooms, or an outlet in their business centre. The grey and brown/green public telephones are also fitted with modem sockets, providing an inexpensive means of connection to the Internet. The brown/green type also has infra-red modem connection capability. Many cafes also have modem sockets.

12.3 Driving and Drivers Licenses

A valid Japanese license or International Driving Permit is required for driving on public roads. International Driving Permits MUST be issued under the 1949 Geneva Traffic Convention and this will be stated on the front of the document. Please contact the organisers if you are unable to obtain such a license. German, French or Swiss driving license holders may request a translation of their license from JAF and use this translation, as an alternative to the 'Geneva Convention' International Driving Permit.. All vehicles travel on the left side of the road and drivers should be aware of the following rules: Road signs generally comply with the international system, with the exception of stop signs which are an inverted triangular shape (similar to 'Give Way' signs in other countries).

All cars are required to stop at every railway crossing and watch for trains, before proceeding.

The speed limit, unless otherwise indicated, is 40km/h in built up areas and 60km/h elsewhere. Speed limits on expressways are 70km/h or 80km/h depending on conditions.

Drivers and passengers must wear seatbelts

The use of mobile phones whilst driving is prohibited.

Drivers are not permitted ANY LEVEL of alcohol in their blood. The fine is JPY1,000,000.

Where the rally route utilises the DOTO Expressway, a toll fee is payable. The cost depends on the vehicle and the distance travelled.

12.4 Banks, Credit Cards and Cash

The banking system in Japan, outside the major cities is quite conservative. The options for obtaining cash are limited, so travellers to Tokachi should read this section carefully.

The only Automatic Telling Machines (ATMs) that can handle international cash withdrawals were those located at Post Offices. But before travelling to Japan, it is wise to check on your bank account details to

make sure the account is set up with Cirrus, Maestro or Visa Plus. Then check to make sure that your bank has a correspondent bank in Japan. The following websites will provide information about Visa Plus, Cirrus and Maestro.

Visa Plus

<http://www.visa.com/atmlocator/index.jsp>

Cirrus or Maestro

<http://www.mastercard.com/cardholderservices/atm/>

ATMs are not open 24 hours. The location of some banks is included in the Business Directory below, along with ATM opening hours.

International services

The major bank branches in Obihiro have international services sections where it is possible to cash travellers' cheques or pick up bank drafts. The Hokkaido Bank in central Obihiro will give international cash advances on Visa cards (only).

Supplementation: Seven Eleven convenience stores are available for use your international credit / cash cards at their ATMs.

12.5 Travel to Obihiro

Following is a description of how to get to Obihiro.

13 Tracking System

Tracking System

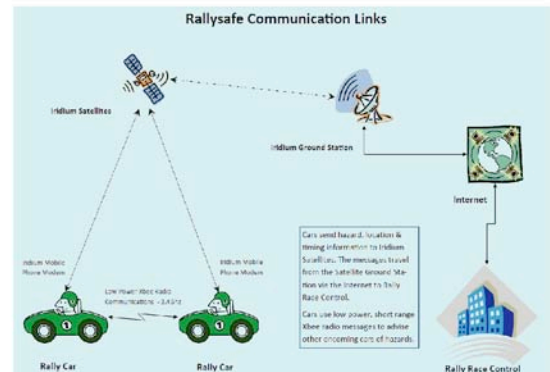

According to the FIA Regional Rally Championship Sporting Regulations Art. 65.2, it is mandatory for all the competition cars to be fitted with safety tracking system. Rally Hokkaido employs the RallySafe tracking system for safety and event operation perspective and hereby mandates all the competitors (including JRC and open-class) to install this tracking system.

What is the tracking system?

With Iridium satellites and low-power radio, cars with this tracking system can detect slow-down and/or halt event of cars with the same system ahead of oneself, with its monitor screen. In case if a car is stopped ahead of you, you will see the information of course is clear (OK) or emergency support required (SOS) in its monitor screen.

Please refer the website for details such as overall system functionalities and installation information.

14 ETC (Electronic Toll Collection system)

The organizer of Rally Hokkaido provides rental service of ETC on-board unit and its card, for crews from overseas. While the installation/use of ETC equipment is optional, the organizer highly recommend to use it for smooth operation of the rally. Installation in the competition cars must be performed by competitors themselves. Domestic crews should prepare both of the ETC on-board unit and card by themselves, prior to the event

● What is ETC?

ETC stands for Electronic Toll Collection system. On-board unit communicates with the system through antennas installed at toll gates of expressways, and the toll is charged to the special credit card called XETC card[®], inserted in the on-board unit. As the toll collection process is automated you do not need to pay the toll at toll booth \equiv all you need to do is to pass through the toll gate below 20km/h.

Since this will save you from stopping and restarting your car for payment, the system helps reducing noise level and air pollution, thus improving environmental condition in the surrounding area. This will also reduce the production of exhaust gas while the car is in idle during the payment transaction, contributing the improvement of global warming issue.

Please refer the following website for details of the ETC system:
