My stage result was not good, but I am enjoying.			
9	6 th OA	Eiichi IWASHITA	MITSUBISHI LANCER EVO IX
I felt the road is very slippery. After a year's break the driver needs more warm-up. I will drive carefully.

This is first stage today, and the result was just so-so. I will be careful as there is long way to go today.

I am not fully warmed up yet, so I felt the car went so fast. But probably the stage result is not that good, I suppose.

The road surface was so good. But I was driving carefully, and will push harder.
