There has been much loose gravel on the road surface. I was too careful as the tyres I am using today are new to me. I think there will be less loose gravel on the next loop and I will push harder.

The engine would not rev-up smoothly on SS1, but the symptom was resolved on SS3, so I will push harder and will move up myself in the standings.				
5	4	Satoru ITO	Masahiro KIHARA	MITSUBISHI Lancer Evo X
I had my car rolled up to 90 degrees on its side, but the damage to the car was just cosmetic one. As there is no room for more damage with the car, so I will not push much and aim to finish the rally.				
2	5	Kumiko KOIDE	Tadayuki AKIMA	MITSUBISHI Lancer Evo IX
It has been a tough rally. There were so much loose gravel and I had several dangerous moments. I will stay cautious and will do my best.				
4	6	Hisatoshi YOSHITANI	Shinji TAKADA	MITSUBISHI Lancer Evo IX
I had 12 years of time since my last rally, and it has been difficult to catch up with the speed of this rally I will try to improve my speed gradually.,
